 **WenPod**
BORN A HERO

SP1+
Turn your **SMARTPHONE**
into a **STABILIZED** camcorder

Model : SP1
Dimension : L114mm W75mm H262mm
Weight : 370g (Including Battery)
Battery : LiPo, 800mAh , 11.1v
Battery life : Upto 120 min. in normal temperature
Charging time : About 30 min. in normal temperature
Operating temp. : -10 °C ~ 40 °C
Operating humidity : 20%~90%

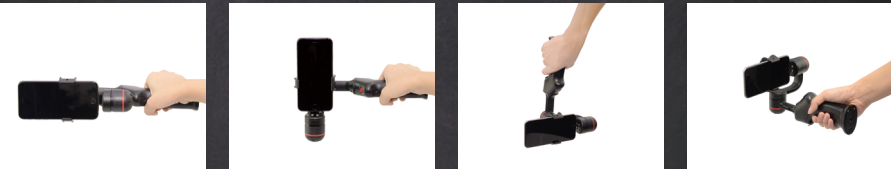

FIT MOST SMARTPHONE

SP1+ fits most smartphone in the market. The phone clips design facilitates smartphone installation in just a second.

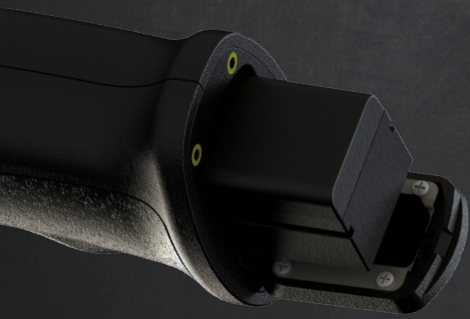

TURN AT WILL. 360° STABILIZED.

Freely turnable design allows video shooting with your smartphone in all position and direction. The brushless motors in both roll and tilt axis interact seamlessly to counteract your movement, keeping your smartphone stabilized at all times.

REPLACEABLE BATTERY

Premium grade Lithium Polymer battery with built-in protective circuit board, and fast charging technology. It can be charged independently on desktop charger (Optional accessory).

TILT ANGLE JOYSTICK

Adjust your angle of shooting right at your finger tip.

ERGONOMIC HANDLE DESIGN

Combining applied science, biotechnology and human engineering into one handle design. Enhance comfortability while holding the handle for a long period of time.

TURN A SMARTPHONE INTO A CAMCORDER IN 1 sec

WenPod SP1+ Digital stabilizer gimbal made for smartphone. Combining self-proprietary A.I. technology and brushless motors, it empowers ordinary smartphone users to shoot remarkable video footage like a professional videographer.
