Operating humidity : 20%~90%

A.I. STABILIZED

Installing GoPro camera in just a second, with simply a press and push action. Power on and you will get stabilized video footages in no time.

"WYSIWYG", SAY NO TO GoPro BLIND SHOOTING

With the 270 degree rotatable 3.5" LCD monitor built-in, it streams the recording and play-back video directly from your GoPro camera.

TURN AT WILL. 360° STABILIZED.

Freely turnable design allows video shooting with your GoPro camera in all position and direction. The brushless motors in both roll and tilt axis interact seamlessly to counteract your movement, keeping your GoPro camera stabilized at all times.

FITTED ALUMINUM FRAME

WenPod GP1+ comes with a sophisticated design premium grade CNC aluminum frame to protect your GoPro camera, and it is fully compatible with GoPro Hero 3/3+ /4

REPLACEABLE BATTERY

Premium grade Lithium Polymer battery with built-in protective circuit board, and fast charging technology. It can be charged independently on desktop charger (Optional accessory).

GP1+

BORN FOR GOPRO

With the launch of GoPro camera, it certainly brings a revolutionary change in videography. WENPOD GP1+ is born for GoPro camera to empower extreme sport lovers shooting stabilized video footage in First-Person View, with the help of its built-in monitor.
